

# 2019 National Summer Transportation Institute

## Try Something New This Summer!

- Make New Friends
- Explore College Campuses
- Go on Over Night Trips

## NSTI Objectives

- To expand participant's knowledge of themselves as learners including soft skill development
- Exposure to careers within the transportation industry
- Foster a desire for females to seek careers in transportation and other non-traditional STEM careers
- Encourage students to think of entrepreneurial ideas related to the transportation industry
- Provide information about educational programs related to STEM and transportation
- Promote teamwork and a collaborative mindset

## How to Apply

- Complete an application by contacting your school guidance counselor or visit the R-CCC website
- Submit an essay expressing interest in the program
- Submit a recommendation letter from a teacher
- Have a 2.0 grade point average
- Must be a rising 7th, 8th, or 9th grade student
- Completed pre-algebra or is currently eligible for enrollment into pre-algebra in the upcoming school year

The National Summer Transportation Institute is a good opportunity for local middle school students to prepare for college, learn about careers in the transportation industry, and develop skills in mathematics, science, technology, entrepreneurship, and soft skills.

This camp hosts 20 students and will be held on the campus of Roanoke-Chowan Community College over the course of four weeks from 8 am-4 pm. The camp dates are listed below:

June 24-26

July 9-12

July 16-19

July 22-25

## Application

**Due Date:**

**June 7th, 2019**
